Career Objective:

Dynamic MERN Stack Developer with 1 year of experience in building scalable web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, with expertise in RESTful API development, responsive design, and Git version control. Adept at Agile methodologies, collaborative problem-solving, and delivering high-quality code within project deadlines.

Skills:

HTML5 | CSS3 | JavaScript | Redux | Reactjs | Nodejs | Express | MongoDb | Bootstrap | Material UI | Tailwind CSS

Experience Summary:

AIMFORTECH Solution | **Intern Full Stack Developer** | **Apr 2023 – Present**

- Developed responsive and dynamic web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack, focusing on user-centric design and functionability.
- Collaborated closely with team members to brainstorm, plan, and implement new features, ensuring alignment with project goals and client requirements.
- Participated in Agile development methodologies, including daily stand-ups, sprint planning and retrospectives, to ensure timely delivery of high-quality software.
- Assisted in the optimization of application performance through code refactoring, database indexing and other best practices, resulting in improved scalability and efficiency.
- Engaged in continuous learning and professional development, staying updated on the latest trends and technologies in web development and actively seeking opportunities to expand skill set.
- Communicated effectively with team members and supervisors, providing regular progress updates, discussing challenges, and offering constructive feedback to support project success.
